**SECTION IV
OFFICIAL LIST OF TEXTBOOKS
STATE OF TENNESSEE**

**Fine Arts (Visual, Music, Theater) K-12, Spelling K-8,
Health Sciences Education, Marketing Education
Trade & Industrial Education, Driver Education, Literature 6-12
Business Technology and Technology Engineering Education
Contract Begins June 1, 2006
6-Year Listing Contracts, Expires June 30, 2012**

**Recommended By The State Textbook Commission
Approved By The State Board Of Education**

TEXTBOOK SELECTION CLASSIFICATIONS

Basal Text - This designation identifies an on-level text adopted by the local school district for use at a particular grade level in a specific subject. Except for the typical supplementation expected for any text, the basal should address all the content for that subject. The basal text is the one that local boards of education are encouraged to adopt and make available for most students.

Technology Dependent Basal – This designation identifies a basal program which requires technological hardware, software, and/or infrastructure for its implementation. Local school systems adopting these programs are responsible for determining the necessary platforms and infrastructure to support these programs and for providing the technology necessary to deliver instruction.

Co-Basal Text - This designation identifies a text which addresses a significant portion of a course but which also fails to address a significant portion of the course. School systems may adopt a combination of co-basal programs which together address the entire course. Systems might also combine a co-basal program with existing resources in order to address all components of a course. When such combinations are employed, it is the responsibility of the school system to assure that materials sufficient to address all components are provided.

Alternative Level Text - This designation may be used to identify texts adopted by a local school district to address the needs of students not on grade level. Such books are designated as "Alternative Level-Low" or "Alternative Level-High." These books may be purchased in lieu of the basal text for a limited number of students. Local systems do have the option of adopting a book or series as an alternative level text even though it has not been so designated in the official list.

ELECTRONIC FILES FOR BRAILLE PRODUCTION

Each publisher bidding textbooks for Section I has agreed in writing to the following stipulation:

We further agree to furnish to the State Department of Education, the American Printing House for the Blind, or a national repository, within 60 days of receipt of a request, electronic computer text files from which applicable Braille versions of any bound print title bid herein may be produced.

BOOKS NOT CONSTRUCTED TO SPECIFICATIONS

This list includes certain print titles not constructed in Accordance with the MANUFACTURING STANDARDS AND SPECIFICATIONS FOR TEXTBOOKS and certain titles in other media for which manufacturing standards have not been adopted. The publishers of these titles have executed the following **REPLACEMENT WARRANTY AGREEMENT**:

*This replacement warranty shall be attached as an exhibit to any contract awarded pursuant to our bid to the State Textbook Commission for the contract period June 1, 2006 through June 30, 2012. It shall apply to all non-consumable for sale components included in our bid which are not subject to Warranty Clause One on **FORM B** of the **Manufacturing Standards and Specifications for Textbooks** for either hard-cover or non-consumable soft-cover texts nor to Warranty Clause One on **FORM M** of the same document for components in one of the electronic media formats recognized in the **MSST**. Publisher hereby warrants and represents that all such components shall remain in good and usable condition for six years after the date of delivery, obvious signs of student abuse or extreme use excepted. In the event during said six year period any such component shall no longer remain in good and usable condition, then upon written notice to publisher, said publisher agrees to provide replacement within thirty (30) days of said notice. **THIS WARRANTY DOES NOT APPLY TO ITEMS DESIGNATED AS CONSUMABLE.***

FREE ANCILLARY MATERIALS

Free ancillary materials to accompany adopted programs have been identified with the following symbols designating the ratio at which these materials will be provided:

** Free, one per teacher	@_:_ Free, specified number of free items
+ Free, one per school	per specified number
DD Free, one per district	of pupil editions purchased

Publishers were limited in the number of lines on the bid form used to describe their free materials offerings. Each local school system is responsible for maintaining a file of any offers for free materials beyond those recorded in this list. Such offers should be required in writing and should be signed and dated by the publisher's representative.

Certain items provided free are also bid for contract. These items will be available at the specified price for the full term of the contract for the benefit of those systems who need to purchase quantities beyond the ratio provided by the publisher or who choose to purchase the items independently of the programs with which they will be provided free.
